Mandatory player-provided equipment:

Street hockey: Hockey stick

Roller hockey: Hockey stick, helmet, in-line roller skates, elbow and knee/shin pads

All goalies: Helmet with full face protection, chest protector, catching glove, leg pads, blocker, stick

** Protective gloves are recommended for all players, but not required. **

General Information:

This program is intended to provide a recreational outlet for Township, Borough or Wharton children as well as to attract potential players for the ice hockey program. The program requires advance registration in order to participate. The goals of the program are to promote the sport of hockey, provide physical activity, and to teach the principles of good sportsmanship and the rules of the game.

Starting Saturday June 26 and continuing every other week until August 7 will be the street hockey program on foot. Starting July 3 and continuing every other week until August 14 will be in-line roller hockey.

No formal teams will be established; rather players will be randomly selected into two teams dividing players of similar age or size between the two teams each morning depending on the children attending. Players will then be grouped into "lines" for play by age or size. Older/larger lines will play head-to-head followed by a line change at specified intervals of the game to the remaining groups of players, thus ensuring that all players on the playing surface are of similar age and size at any one time.

No checking will be tolerated at any level of play. Some goaltending equipment may be made available for public use. Pinnies will be provided for team identification.

Games will be supervised by an on-ice "official" who will be a Rutgers certified, USA Hockey trained coach. There will be no playoff or post-season activity.

With questions please contact Peter Thornton 973-335-3673 or David Knightes 862-368-9033 or e-mail rthockey@optonline.net.
